Predictional Report 2007

With this Report Dignity for Children intends to clarify the plans for the year 2007 to its partners. According to the agreements made by the partners and Dignity for Children it should help the local partners to plan their work and to be able to estimate what to expect from Dignity for Children in 2007. However, figures mentioned in this report cannot be seen as guaranteed.

Along with this report you get the financial report of 2006. Since we are still a small association it is our aim to let everybody be part of our work through a transparent handling with each partner. That's why this report includes the predictions for all partners.

Project proposals

Dignity for Children starts with stable funds into the year 2007. That's why we would like to encourage our partners to request money from us for individual projects. For that we need detailed proposal(s) including idea, timeframe, financial plan (incl. other donors), budget, aim, indicators how to measure the aim for each project you are planning etc. However we cannot guarantee that we will be able to grant the requested funds. Still we are only able to grant small-scale funding.

However, each partner will not be granted a new funding until Dignity for Children got the report about the last funded project. As soon as these reports have reached Dignity for Children, we are able to decide about the new proposal.

Please remember: As long as you don't request money, we will not be able to send you any.

Hope for Children in Ethiopia

Work with our first partner grew again during 2006. This was a surprising result. More than 120 children benefit from the financial support. Main effort for DFC in 2006 will be to keep this level. This includes 49 individual sponsorships each worth Euro 108,-- each year. There are still sponsorships that need to be covered. Administrative costs necessary in this context in Ethiopia should be covered by this amount.

Also to be confirmed is the third year of payment for the Project financed by DFC and Wege zur Einen Welt.

DFC will assist HFC to improve the partnership with the FKG in Göttingen. For that DFC will offer help for intercultural exchange as well as assistance for money transfers. FKG so far has 15 individual sponsorships. Each of it worth Euro 108,-- per year. Additional payments are to be expected but it is not possible to estimate an amount.

Hope for Children in Ethiopia is asked to send in proposals for additional projects.

UNPADS, Peru

Dignity for Children still wants to increase its cooperation with UNPADS. DFC needs more detailed reports of the organisations progress and especially about the wellbeing and development of the 16 children covered by DFC. All of these children have an individual sponsor in Europe paying at least Euro 108,-- per year and child. Still there are children that we are seeking sponsors for.

Also UNPADS may send in proposals for additional projects.

Mobile Mini Circus for Children - MMCC, Afghanistan

The Mobile Mini Circus for Children (MMCC) in Kabul, Afghanistan also is requested to send in reports and proposals in 2007. Payments than can be done on very short notice. MMCC does not organise sponsorships. Therefore Dignity for Children will support the partner with single projects that are necessary to keep the work going. Projects also might be co-funded by DFC.

Please contact us with suggestions, questions or any other comments any time.

Dignity for Children is glad to see the positive developments of our partners in Ethiopia, Peru and Afghanistan.

On behalf of Dignity for Children I wish us all a good and cooperative working year 2007.

Anna Lena Schmidt
First chairwoman
Dignity for children
